## Rules:

- We will shoot at 15 targets (marked with orange flags) in a group format.
- Each participant shoots two arrows per target.
- Shooting stakes are as follows:
  - Blue 50 yards
  - Green 45 yards
  - Red 40 yards
  - Yellow 35 yards
  - Orange 30 yards
  - White 25 yards
- No Crossbows, No Range finders.
- Participants must play in 9 of 11 league scheduled shoots to qualify for 50/50.

## Scoring:

- **Weeks 1 – 11:** We will use 15 Rinehart 3D targets 2 arrows per target.  
Scores: center vital-10, outer vital ring-8, body shots-5, leg shots-0.  
(11 ring is optional depending on what we want for scoring. It can be just marked as an "x" for tie breaking feature.)

- **Scratch:** Score Maximum is 300pts (330 pts possible if using 11 ring)
- **Handicaps:** Members will have their handicap calculated when 2 rounds have been completed. Handicap calculation will be as follows:
  - $(300 - \text{Average score}) * 0.85 = \text{Handicap}$ .
  - "Average score" is based on the average of your previous two scores entered (Weeks 1 and 2 handicap will be based on scores from those two weeks)
  - Weekly Scratch score + Handicap = **Weekly handicapped score**. The **handicapped max score is 300 (330 for x scoring)**. (Ex. Scratch score of 270 + a handicap of 35 will result in a handicapped score of 300)
- **Scorecards:** Will be provided and filled out by individual participants. Participants will record their own score on a master scoresheet before leaving each week. League organizer will tally the final master scoresheet. Participants are encouraged to hold on to their own scorecards.
- **50/50 Winner:** Will be based on the individual's highest total average handicapped score.
- **Award Ceremony:** End of league celebration Sep. 25th
